### Universal Bed Adapter

Equipment Required

Tools for mounting HighLight to a single gang opening or directly to the headwall. Drywall & adhesive mounting hardware is provided.

Mounting

Secure the mounting bracket and clip the HighLight into place.

Position appropriately to be visible by the care team & avoid bed impacts.

Connecting

Connect the bottom 37 pin port to the nurse call system, the front 37 pin to the bed, as well as any auxiliary connections as needed.
