HATCH✚MED

An Intelligent Display for Complex Data

Translating EMR, nurse call and bed signals into clear, actionable insights

Connecting patients to technology in a **way that makes sense.**

Since 2012, HatchMed has been transforming hospital safety, patient engagement, and workflow efficiency by providing healthcare teams with technology designed around their real-world needs. Founded by industry expert Brian Hatch, HatchMed is built on over 30 years of combined experience in software, hardware, and design. Our agile, collaborative approach has earned the trust of prominent hospitals across the country, allowing us to adapt to diverse facility needs with impactful technology solutions.

Our mission is straightforward: to help patients leave the hospital healthier, happier, and faster. We achieve this through innovation, bringing cutting-edge solutions to patient care, while staying true to our core values of being collaborative, agile, and intuitive.

HATCH+MED

Epic Monitor curates data from the patient's record &
their current stay to answer a simple question:

does the patient need your attention right now?

Why **Epic** Monitor with HallMonitor?

Patient & Care Team Safety

Reduction in accidental intrusion into **high isolation rooms** with automated HallMonitor LEDs

---

Nurse Efficiency

Frees up hours each day for bedside care from avoiding traditional paper signage, **with proven ROI**

Clinical Workflow

Patient **fall risk** & RTLS **care team presence awareness** driven by HallMonitor

What is the cost of **safety?**

Our customers have helped us compare what it cost them to keep their signage as accurate as HallMonitor - **what is it costing you?**

List Price HallMonitors	$40 / h Nursing Salary	$700 / room Cable Wiring	$316 iPads

Real Customer Data - Contact Us for a Personalized Estimate

Savings for a **40 room med-surg unit**	Time Spent per room per day	Time Spent all rooms annually	Annual Cost care team's time
Before HallMonitor Referencing EMR & manual signage updates 2x per day	11.5 minutes	2,800 hours	$112,000
With HallMonitor Updating non-EMR statuses on screen	2 minutes	486 hours	$19,500

HallMonitor lets your care teams focus on patients — not chores.

380 minutes / day	2,305 hours annually

Additional Patient Care Time

$92,000 annual savings	9.8 months ROI

The Bottom Line

Staff Badge Reader

Authenticated workflows
& non-EMR field edits

Flexible Deployment
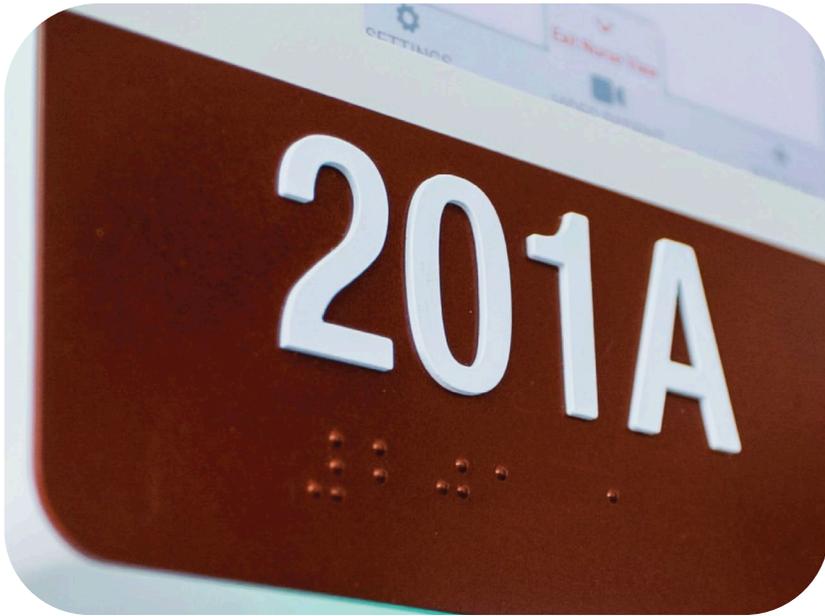

Portrait or landscape
orientation

Plug & Play Installation

Single PoE+ cable keeps the
iPad charged, connected to
wired internet & provides
HallMonitor power. MAC
whitelisting is supported.

Maintenance

Cleanable with standard
medical wipes & solutions.
Modular, USB C based
design, built around
upgradeability and seamless
component replacement.

ADA Compliant & Tailor Made for You

Grade 2 Braille with raised room numbers to replace traditional signage & paper notes

Enclosure color, finish, number plate, and font — all matched to your hospital design. Software is tailored to existing workflows.

What are the customization options?

Meaningful illumination tied to real-time status — like fall risk, isolation, in-room presence, or bed safety. EMR-connected and customizable, they highlight only what matters, when it matters.

### How do the LEDs impact alarm fatigue?

HallMonitor is a platform which grows with you - as iPads update, all cabling and circuitry remain constant, a simple frame upgrade is provided by HatchMed at no cost with the Upgrade Plan.
